## CENTRO DIDATTICO NATURALISTICO DI BASOVIZZA

NATURE  
CULTURE

EXCITEMENT

Corpo forestale regionale

REGIONE AUTONOMA  
FRIULI VENEZIA GIULIA

The “Centro didattico naturalistico di Basovizza” is a modern visitor centre set up and run by the Autonomous Region of Friuli Venezia Giulia through the Regional Forestry Department. Equipped with the very latest technologies, this multi-functional centre

provides information about the environment for schools and the citizen. The Centre is located close to Trieste in the Carso village of Basovizza, in the former forestry nursery area, where the ambitious project to reforest the Carso took root in the early 19th century.

## FROM GROWING TREES TO GROWING AWARENESS OF NATURE

Exhibitions on various aspects of nature and other hands-on displays accompany the visitor on a journey of discovery of the Carso, its nature, history and culture, but also of the major environmental issues of the Earth itself.

### Model of the Carso

bird's-eye view showing the layout of land between Italy and Slovenia

### A Time Corridor

from the Big Bang to today through the history of the Carso

### The Carso's natural environments

the flora, the fauna, the biodiversity and Nature's harmonies

### The Magic Tree

discovering the secrets of the woods and trees

### The Wood in Italy and Worldwide

from the ecology to its invaluable functions in the service of man

### Wonder lounge

an invitation to sustainable living saving planet Earth

### Temporary Exhibitions

meet the friends of nature

### Conference Hall

detailed information and videos on topics from the natural world
