

MAIN FINDINGS FROM S3 FVG CASE

The Internationalisation of Smart Specialisation Strategies

Paolo Rosso, Policy Analyst, OECD Trento Centre for Local Development

S3 in FVG. Some considerations

- FVG region is well positioned on SRTI national ranking
- S3 as a catalyst for the regional innovation system
- Synergies and linkages to be strengthened and rationalised for an effective functioning eco-system
- The complexity of the S3 approach required restructuring and consolidation and the strategy has evolved accordingly, resulting in an essential learning process, a solid basis for finding ways to ensure wider diffusion of innovation

S3 in FVG. Some considerations

- Regional agreements with strategic partners, good conditions for the internationalisation of the system
- Mostly potential yet to be tapped, in terms of more systemic and widespread dynamics linked to smart specialisation
- The next S3 generation requires tackling the challenge of internationalisation more convincingly

S3 FVG's approach to internationalisation must be structural

Policy Recommendations

1

Broaden internationalisation
channels in traditional regional
businesses

Policy Recommendations

2

Build SMEs innovation capacities
as a pre-requisite to support
internationalisation

Image:
©freepick

Policy Recommendations

3

Define a mid-term vision for internationalisation of the regional innovation system

Image:
©freepick

Policy Recommendations

4

Embrace a bottom-up approach
in the governance system

Image:
©freepick

Policy Recommendations

5

Build better capacity for regional innovation and international projections

Image:
©freepick

Policy Recommendations

6

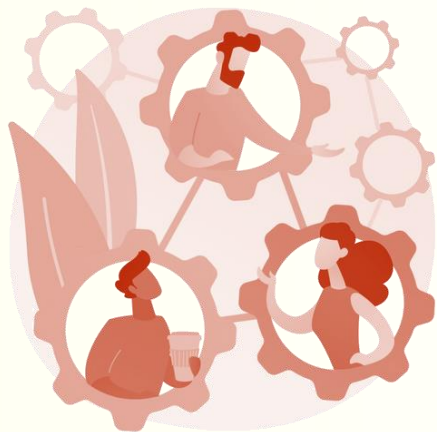

Improve analytical skills “within the regional policy maker structure”

Image:
©freepick

Policy Recommendations

Enhance regional insertion in international networks and platforms

Image:
