EUROPEAN JOB DAYS

Find your job in Europe.

Are you interested in finding a job in Europe?

The European Job Days are exactly what you need!

European Job Days are **dynamic recruitment events** that bring jobseekers and employers together.

Jobseekers can find not only **recruitment opportunities** but also **practical information** and advice from EURES Advisers and other employment professionals.

There are hundreds of European Job Days events taking place **all over Europe** every year.

The Job Days vary in size and focus but they are all run with the aim of **encouraging mobility throughout Europe** and, of course, placing the right candidate in the right job.

To make European Job Days **accessible to as many people as possible** it has been recently created the European Online Job Days that allow employers and job-seekers to come together "virtually" without being physically present at an onsite event.

Some European Job Days combine an **onsite event** with a **European Online Job Day**.

Whatever your preference, you are sure to find an event that **meets your needs**.

European Job Days are run by **EURES, a network of European Employment Services and the European Commission.**

This season will focus in particular on the **healthcare, engineering, ICT, tourism, and hospitality** sectors.
